WORK EXPERIENCE

Full-Stack Web Developer

2022-present

HashNet inc, Part-time

- Developed a custom CMS using folder-based blocks for articles, portfolios, testimonials, authentication, and categories to develop websites faster.
- Created and maintained over 11 WordPress websites, including backups and data entry
- Provided ongoing maintenance and technical support for web projects

Software Developer

2021-2022

DXN Taksim, Full-time

- Developed and implemented various tools to automate manual processes, including a points calculation tool for billing, improving efficiency and accuracy.
- Provided technical support and expertise to colleagues, addressing and resolving any computer-related issues.

FREELANCE PROJECTS

Freelance Web Development

2020-Present

Relevant achievements

- Completed over 13 web development projects, including more than 7 paid freelance projects.
- Developed musaaaid.ai as a freelance project, a quizzes platform with diverse options and extensive integrations (ActiveCampaign, GetResponse, Google Tag Manager, Meta Pixel, Snapchat Pixel, TikTok Pixel, Twitter Pixel, Google Ads, and more).
- Worked on a variety of different freelance projects such as
 - Telegram bots for Auto response and Data collection
 - web scraping 1,000 clothing products for an online store
 - fixing issues in PayPal's online payment portal
- Managed end-to-end development projects, from initial consultation and planning to deployment both back and front ends and maintenance.
